

# Meditation Timer Available Today for iPhone and iPod touch on Apple's iTunes App Store

GOTHENBURG--September 3, 2008--Lingon i Korg Software Creations today announced that the company's third application for the iPhone and iPod touch mobile platforms is now released on Apple's iTunes App Store.

Meditation Timer is great for timing your daily seances of meditation. Coming with two soothing color schemes, a recording of a singing bowl, and the possibility of setting a preparation timer, Meditation Timer lets you settle in your favorite position without stress, wherever you and your iPhone may be.

"We really made Meditation Timer for ourselves," said Oskar Lissheim-Boethius, Lingon i Korg's Founder and CEO. "It has been a great support and trigger in helping us take those vital ten minute meditation breaks from our daily work schedules, letting our concentration stay high throughout the day."

Features include two soothing color schemes (green and purple); the option to turn the sound off, leaving only a gentle vibration (available only on iPhone) to let you know when the time has run out; as well as a preparation timer set to between 0 and 10 minutes.

**Pricing & Availability:** Meditation Timer is available worldwide as of today in the iTunes App Store, for the price of \$0.99 USD. (Local currencies vary.) The first five thousand (5000) copies will be given away for free as part of a promotion.
